Introducing

THE FIRST NBA-SUPERSTAR PLAY-TO-EARN GAME

We offer basketball fans and NFT enthusiasts the opportunity to earn real money with our Play-To-Earn Game [#dunx](#)
Be one of the early investors and join our team to make this project one of the highlights in 2023!

Problem

Do people earn money playing their favourite game?

As we will learn later, the games market is growing fast and especially on mobile devices people spend a huge amount of time playing games. But very few games offer the possibility to earn money while playing. **In the field of basketball there is no such game yet.**

Solution

**Easy money without
necessary knowledge
or hard effort**

Solida World is an opportunity for everyone who desires to make easy money without being a cryptocurrency expert or professional investor. No knowledge is necessary and as long as you are passionate about basketball and playing our game, you can easily earn money.

Market Size & Opportunity

We operate in one of the fastest growing markets

The games market is growing like hardly any other and especially mobile games are very popular. **In 2022 50% of the market's share was found in mobile games** and we will see even higher shares in the near future. Thus we operate in a very promising field where we will have our slice of the pie when putting together a professional project and reaching our goals.

Product

**4152 NFTs, the SLD token,
the beta-game „dunx“
and more**

Besides our NFTs and the SLD token we focus on the development of our game dunx.

The first goal is a beta-version of the game where players can compete against each other and collect items and improve their skills.

Our ultimate goal is a fully developed Play-To-Earn game in the metaverse.

Team

Everyone who is invested in Solida, is part of the team

We are a DAO-project, thus Solida World is owned by our community. Everyone who owns a token or one of our limited number of NFTs is part of the team. Like any other NFT project we are dependent on the steady growth and support of an active community.

Competition

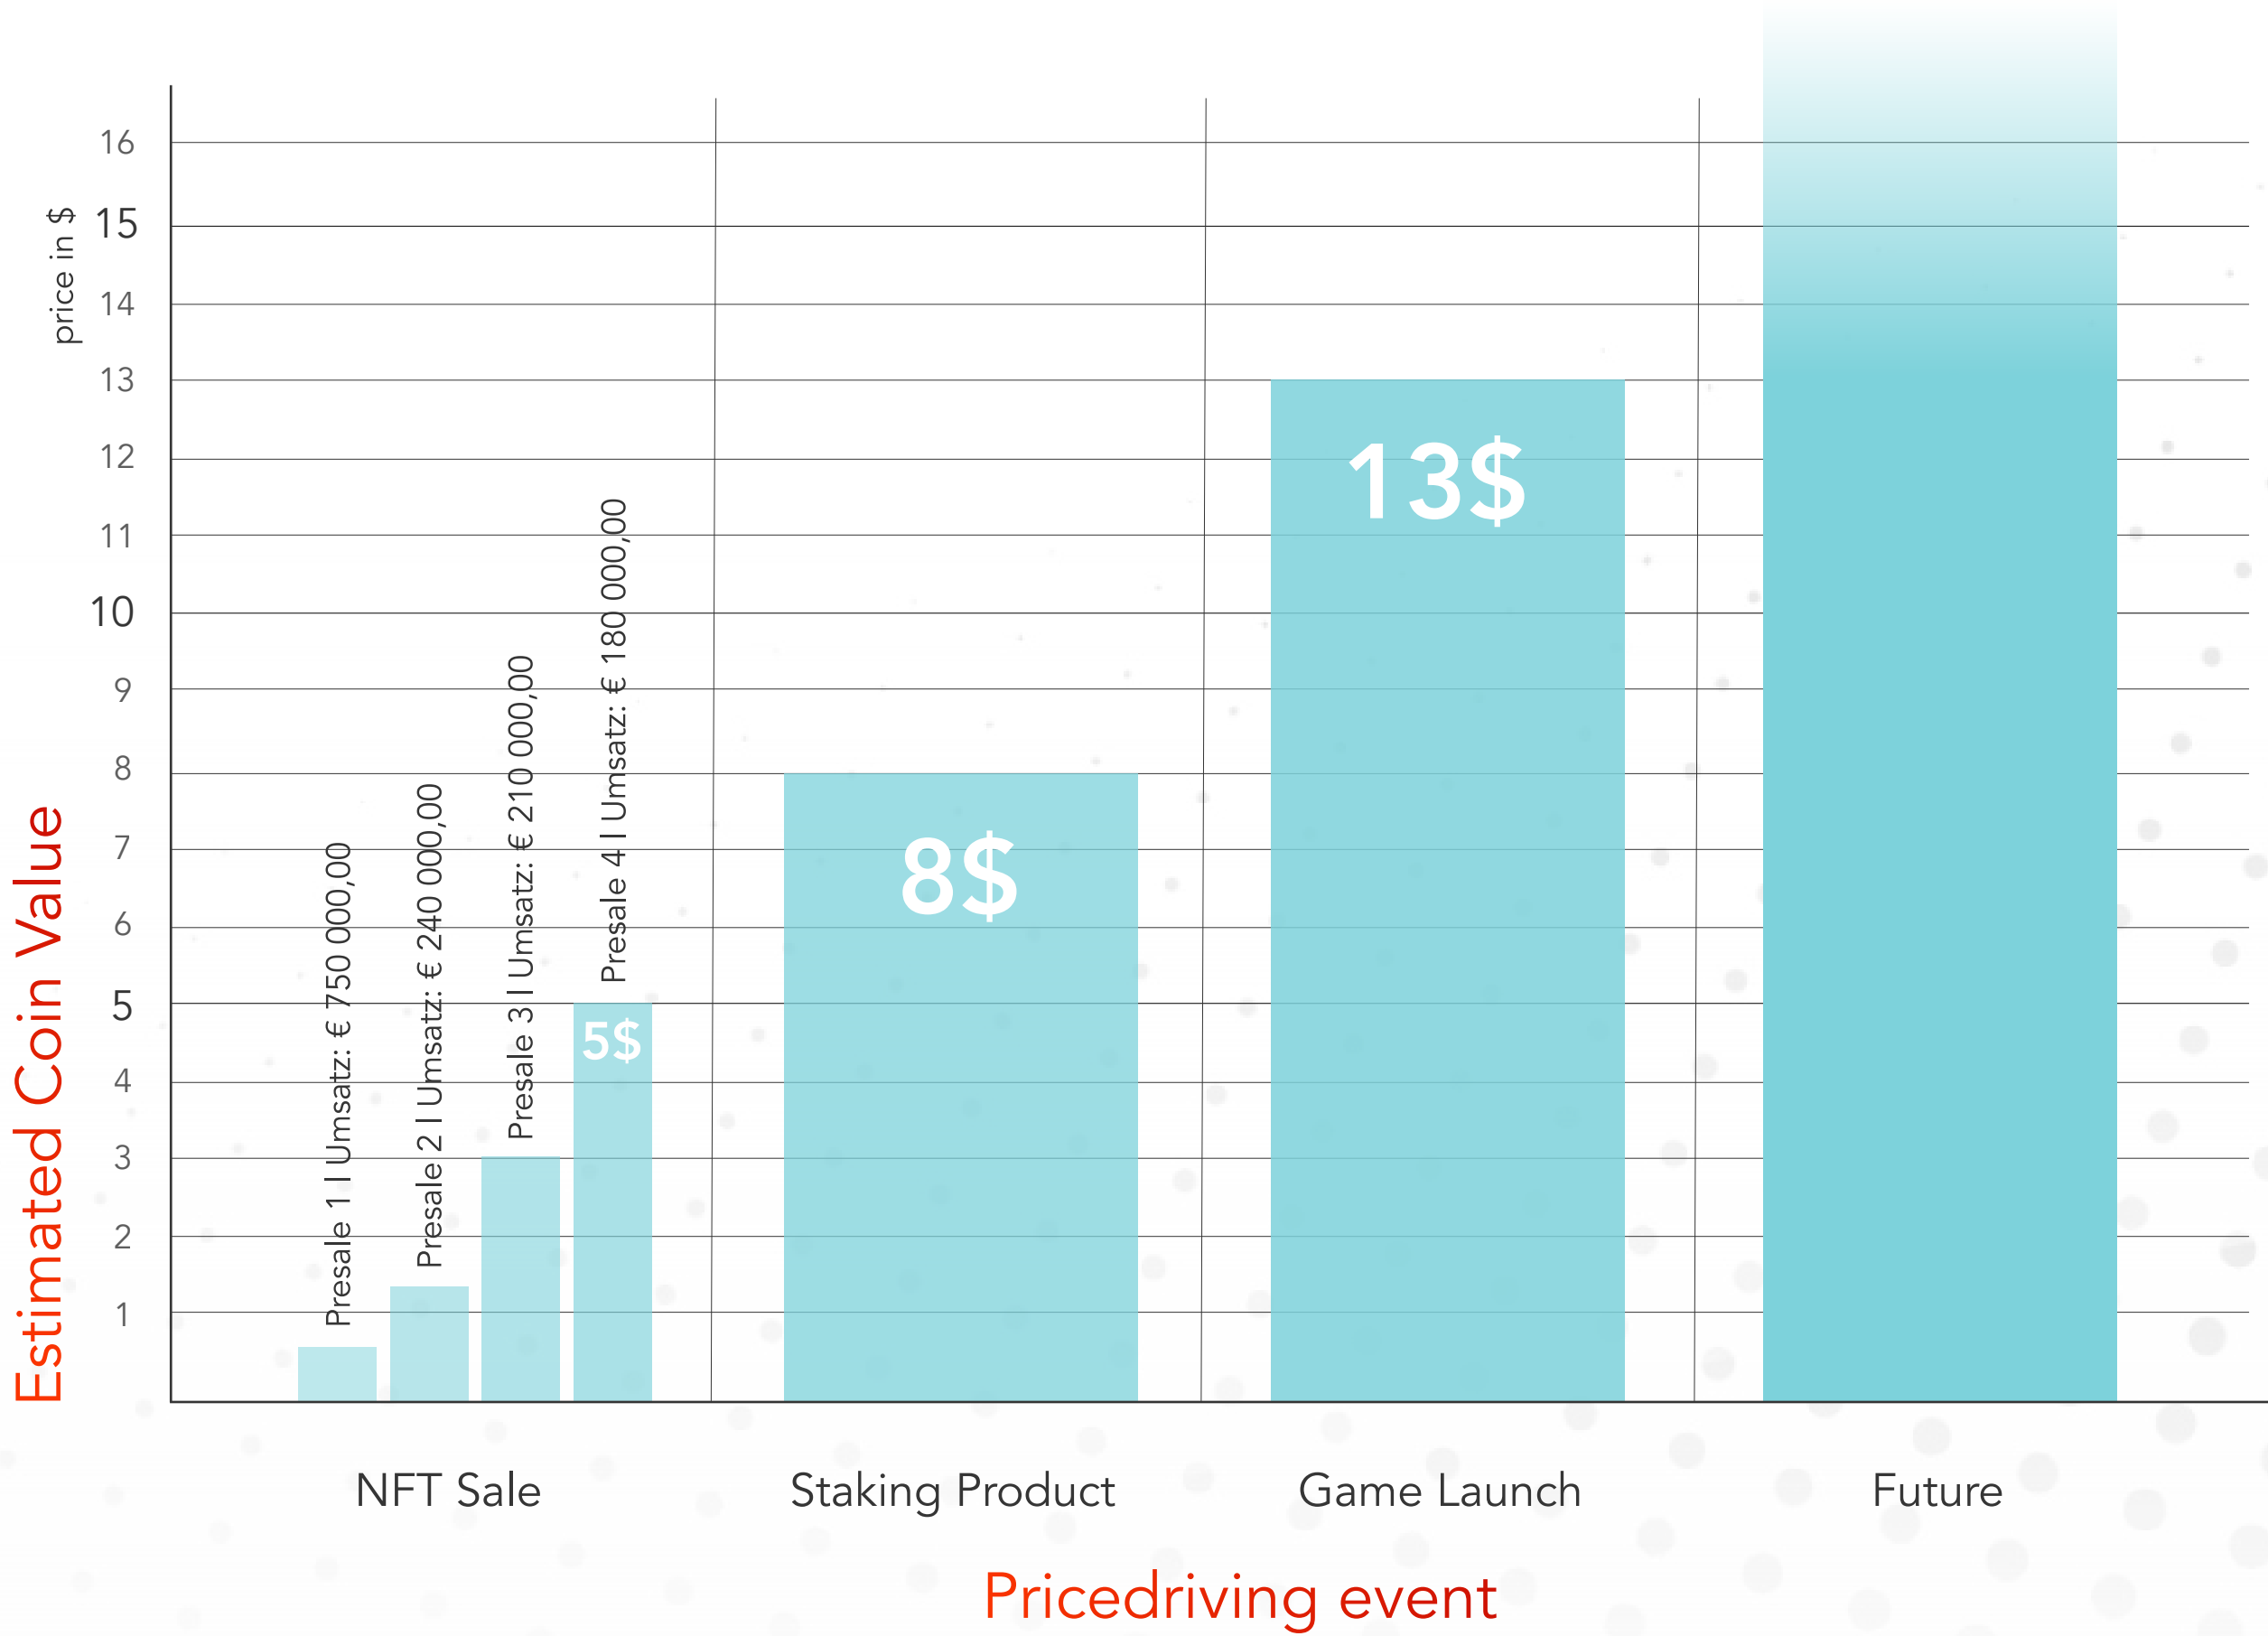

**There is no comparable
NBA-Superstar game
on the market**

We see ourselves as first-movers in the field of NBA NFT Play-To-Earn games. Our competitors either offer games without the possibility to earn money or focus on different sports. **Especially by putting famous NBA Superstars at the heart of our game, we clearly distance ourselves from the competition.**

Financial Forecast

You do not want to miss out on this opportunity

The NFT sale generates a total turnover of € 1.380 000,00 if all NFTs are sold in each particular presale phase. This drives the token to an estimated value of around 5\$. After the Staking Product Sale the token could reach 8\$. After the game launch we expect another significant rise up to 13\$ with even higher peaks in the future.

Invest and use of funds

**Funds are carefully
used for reaching our
milestones**

We attach great importance to dedicating all funds collected to the development of our game „dunx“ and our platform in the Metaverse. Our focus lies in creating a sustainable and strong project that provides long-term added value to our community. Handling our financial resources carefully is therefore self-evident.
